Investigation of Michigan
Copper Strike Now Is
Under Way

STRIKERS TO TELL STORY

Union Will Present Their Side
of Controversy First
at Hearings

HANCOCK, Mich., Feb. 9.—Federal investigation of the conditions in the copper country were formally instituted today by Representatives Taylor of Colorado, Casey of Pennsylvania and Howell of Utah, members of the house subcommittee on mines and mining.

Chairman Taylor, in opening the inquiry, explained the purpose and intended all who could shed any light on the controversy to appear before the committee and testify. O. N. Hilton, appearing for the Western Federation of Miners, asserted that inasmuch as the committee had decided that the strikers' side would be heard first, he would suggest that the causes leading to the alleged conditions be the first object of inquiry as necessary to determine the justice or injustice of the miners' contentions resulting in the strike.

Allan E. Rees, senior counsel for the mine companies, said the owners would do everything possible to aid the committee.

Inquires Into Conditions First.

The committee decided to take up the subject of inquiry in regular order. Chairman Taylor and Mr. Howell both expressing the opinion that the existence of the conditions alleged should be proved before they could properly inquire into the causes.

William J. Rickard, president of the Belmont local of the Western Federation of Miners, was the first witness. He had barely begun his narrative when the committee adjourned until tomorrow morning at 9 o'clock.

We are prepared to show, Mr. Hilton, in his opening statement, that there has been enough time in the last two weeks to 16 years of age and that there has been an unparalleled conditions of ours. I believe we can show that many who entered the mine as boys, who have worked all the time up to the present date, never have averaged \$3 a day for their work.

We will show that it is impossible for men to get work unless they traded at certain stores," he continued. "When they were hopelessly in debt they were denied houses to live in."

Investigation of Michigan
Copper Strike Now Is
Under Way

STRIKERS TO TELL STORY

Union Will Present Their Side
of Controversy First
at Hearings

HANCOCK, Mich., Feb. 9.—Federal investigation of the conditions in the copper country were formally instituted today by Representatives Taylor of Colorado, Casey of Pennsylvania and Howell of Utah, members of the house committee on mines and mining. Chairman Taylor, in opening the inquiry, explained the purpose and invited all who could shed any light on the controversy to appear before the committee and testify. O. N. Hilton, appearing for the Western Federation of Miners, asserted that inasmuch as his committee had decided that the strikers' side would be heard first, he would suggest that the causes leading up to the alleged conditions be the object of inquiry as necessary to determine the justice or injustice of the miners' contentions resulting in the strike.

Allan F. Rees, senior counsel for the mine companies, said the owners would do everything possible to aid the committee.

Inquire Into Conditions First.

The committee decided to take up the subject of inquiry in regular order. Chairman Taylor and Mr. Howell both expressing the opinion that the existence of the conditions alleged should be proved before they could properly inquire into the causes.

William J. Rickard, president of the smelter local of the Western Federation of Miners, was the first witness.

He had barely begun his narrative when the committee adjourned until tomorrow morning at 9 o'clock.

We are prepared to show," Hilton, in his opening statement, "that a very large number of miners engaged in the mines now from 2 to 10 years of age and that there has been an unparalleled conditions of life. I believe we can show that boys who entered the mines as boys, who have worked all the time up to the present date, never have averaged \$3 a day for their work."

We will show that it has been impossible for men to get work unless they traded at certain stores," he continued. "When they were hopelessly in debt they were denied houses to live in."

WOULD LEASE COAL LANDS IN ALASKA

WILSON TO OPPOSE LITERACY TEST IN IMMIGRATION BILL

Bill Provides This Method of
Developing Northern
Territory

Views Are Communicated to
Senate Committee Study-
ing Measure

WASHINGTON, Feb. 9.—A plan to open up the coal lands of Alaska through a leasing system was proposed by bill introduced in the house today. Representative Ferrell of Oklahoma, a part of the administration program for the development of the resources of the territory.

The measure would allow the secretary of the interior to lease for private development the government coal lands in Alaska in blocks of 40 acres, multiples thereof, up to 2,660 acres, no claims aggregating more than one acre could be combined under penalty of forfeiture. Stringent provisions against possible combination control of the lands would impose a fine of \$100 a day for joint ownership of more than the prescribed amount.

So many of the interior would be required to lease the lands which would assure the payment of rents of 2 cents a foot per annum. During the time the lands are leased, no claim being projected, the bill will require the payment of the rate of 25 cents per acre for the first year, 50 cents per acre for the second, third, fourth and fifth, and so on thereafter, the rents paid on each annual increase to be deducted from the rental fee.

Indefinite in Term

Rents would be indefinite depending upon the working of the lease. If the secretary would be unable to alter the condition of the lands after 20 years, the funds so received would be applied to the development improvement and maintenance of the territories of Alaska and the building of the government buildings planned in the bill.

But air mail passed the senate last in the day the same bill was introduced in the house by Senator Gillette of Montana, who has participated in the administration conference.

Indefinite in Term

Rents would be indefinite depending upon the working of the lease. If the secretary would be unable to alter the condition of the lands after 20 years, the funds so received would be applied to the development improvement and maintenance of the territories of Alaska and the building of the government buildings planned in the bill.

(Continued on Page Two.)

REPUBLICANS ARE URGED TO SUPPORT PLAN

Left Caucus in Huff and Re-
fuse to Attend Com-
mittee Meetings

GOVERNMENT BY MAJORITY

Democrats Hold That Party Is
Responsible for All
Legislation

WASHINGTON, Feb. 9.—Although expressing the hope that the Republican members would yield in their expressed determination not to participate further in the deliberations of the Interstate commerce committee on the trust legislation, Senator Newlands, chairman of the committee, asserted today that Democrats had to assume supervision over trust bills because the Democratic party is responsible to the country for legislation.

Senator Cummins of Iowa and Clapp of Minnesota left a meeting of the committee last week when informed that the Democratic members had voted in a meeting of their own against certain amendments proposed by Republican members of the Interstate trade commission bill. The Republican senators later announced that they would not attend further meetings of the committee for consideration of the trust bills.

Republicans Peaved.

"I hope that the senators will change their minds and join with the committee," Senator Newlands said. "In discussing the question with them, I frankly stated that the Democratic members felt that they should consult with one another in shaping this legislation. The Democratic party is responsible for the legislation by this congress and it is to the Democrats that we must look to sound the Democratic views with respect to legislation."

"We respect and desire the cooperation and the suggestions of Republicans, and some of their suggestions we have already adopted. This is a temporary bill, and the majority of the committee are reported to the full committee in every instance and there is no ground for criticism on the basis of secret action. There is nothing in our actions to be concealed."

Hearings Continue.

Clearings on the trust bills continued today before the house committees. Frederick Strauss, member of the federal stock and bond commission in the Taft administration, told the Interstate commerce committee that proposed regulation of railroad securities by the Interstate commerce commission would be dangerous interference with the normal course of finance. John D. Ryan, president of the Amalgamated Copper company, told the judiciary committee that legislation should not prohibit manufacturers combining for the purpose of competition.

Accusations and Threats Have Been Made by Speakers at Public Meetings

on several occasions and today's clash came as a spectacular climax in the campaign.

(Continued on Page Two.)

BREAKS RECORD, BUT LOSES LIFE

ARMY AVIATOR KILLED
AT SAN DIEGO

Establishes American Record
for Altitude, Attaining
12,120 Feet

SAN DIEGO, Cal., Feb. 9.—Lieutenant Henry B. Post of the First Aero corps considered one of the most skillful United States army aviators plumped to his death in San Diego bay today when the right wing of his airplane crumpled like an egg shell. Post died after establishing an American altitude record of 12,120 feet. He fell 800 feet into shallow water and was dead when Francis William, another flier, reached the scene in his flying boat.

Post left the North Island Air Force at 9 o'clock yesterday and declared his intention to break the American altitude record for hydroaeroplanes held by the committee. Post attained a height of 12,120 feet, the maximum showing the plane when it was shot down from the wreckage.

Post's organization is interested in the record and out of his relations must enter into the history of the subject. His suggestion of immovable record for hydroaeroplanes held by the committee. Post's organization is interested in the record and in the making of an immigration law and it is my purpose to see to it that this is thoroughly deliberated upon before the Senate is asked to pass it.

As far as the literacy test in the house, Senator Smith would make no statement other concerning his own or the president's view. Other members of the committee have let it be known, however, that President Wilson favors some other form of immigration restriction. Senator Lodge of Massachusetts, a member of the committee and staunch advocate of a literacy test for immigrants, intends to fight for retention of this provision in the bill.

(Continued on Page Two.)

ARTICLES OF WAR MAY BE REVISED

REFORMATION MILITARY
PRISONER PROPOSED

Bill Passed by the Senate
Would Do Away With
Federal Prisons

WASHINGTON, Feb. 9.—Revision of the articles of war—the military law of the United States that has stood unchanged since 1890—is proposed in a bill passed without a dissenting vote by the senate today designed to make the soldier guilty of purely military offenses an object of reformatory discipline, instead of a penitentiary convict with the criminal stamp upon him.

Post Leavenworth, Kan, would cease to be a federal prison under the terms of the bill and hereafter would be known as the United States Military Detention barracks. The prison would be modeled after the English army disciplinary institution at Aldershot and no soldier or civilian convicted of an offense punishable by penal servitude might hereafter be confined there.

Military prisoners under suspended sentence quartered in the detention barracks would be organized into military commands and then training kept up when prison conduct warrants in the opinion of the secretary of war.

Honorable Restoration.

Honorable restoration to the army or permission to resign without prejudice if the enlistment had expired.

The bill makes no mention of the military prison on Alcatraz Island, San Francisco. In this connection the committee report says the secretary of war is convinced that establishment of the detention barracks and necessary branches would make the maintenance of a military prison unnecessary. The elimination of Alcatraz Island from the bill would make possible the use of island as an immigration station, as desired by the immigration bureau.

The jurisdiction of courts-martial would be considerably broadened under the proposed new code, extending to capital offenses in times of peace which are beyond the reach of civil courts.

The present code gives this provision only in time of war. On peace in time of war only would the death sentence be mandatory under the new code and a two-thirds majority of the court-martial imposing such sentence would be required.

Not Trying to Force Reversal.

President Wilson has made it clear to the senate and house leaders that he is not attempting to force congress to reverse itself. He has outlined to them the country's situation with respect to foreign relations and his belief that a reversal of the policy on the tolls adopted by the nation through the action of congress should be reversed regardless of the declaration in the Baltimore platform.

As a forerunner of this step Senator Stone of Missouri, who is confined to his home by illness, addressed some poignant comments on the controversy in a letter to Senator Kern, as chairman of the senate committee.

No Occasion for "Ruckus."

Referring to the discussion of the tolls in the platform he said, "It is a joker." Senator Stone called such a suggestion "utterly preposterous" though admitting that only a small percentage of the members of the convention had

(Continued on Page Two.)

MISS MC CALL SAYS MANY CHILDREN ARE DEFECTIVE

County School Superintendent Gives

Figures in Report of Examinations

in El Paso County

Of the total number of school children in El Paso county, one-third are defective in varying degrees, according to a report made to the state superintendent of public instruction by Miss Minnie L. McCall, county superintendent of schools.

The pupils examined numbered 6,286 and of this number 2,049 were found to be defective in some respect. Bad sight seemed to be the chief defect. The number of defective boys is 1,071 and the girls, 977.

The examination of the pupils was carried on by the teachers in accordance with instructions sent out by the state superintendent to the teachers in the various schools in the county.

The report of the physical examination is as follows:

Pupils examined	Male	Female	Total
1,826	3,093	6,286	
Defects—			
Sight	603	351	1,154
Hearing	167	176	343
Breathing	311	212	523
Mental	68	76	144
Moral	23	10	33
Other physical	831	354	1,185

The examination of the pupils was carried on by the teachers in accordance with instructions sent out by the state superintendent to the teachers in the various schools in the county.

The report of the physical examination is as follows:

Diversion of Niagara
for Power Purposes

Urged by Gov. Glynn

NEW YORK, Feb. 9.—Governor Glynn, Attorney General Carmody and other New York state officials urged the house of representatives to-day to advise diversion of Niagara river water for power purposes in an aggregate of up to 20,000 cubic feet a second for New York's industrial needs.

The delegation after conferred with chairman Spelman of the rivers and harbors committee, urging immediate action to begin the work of diversion of the Hudson river by deepening of the channel and Lake Champlain.

Mr. Glynn and Mr. Carmody disputed the federal government's right to interfere with state regulation of Niagara water except it might affect commerce or national defense.

Machine Responsible

A series of wide spirals cut into the descent of the machine apparently to be under perfect control. When within 600 feet of the water the plane was seen to collapse then career on the next instant the unfortunate pilot was hurled from his seat and the machine plunged downward like a bullet.

Pilot fell into five feet of water, the wrecked craft disappearing from sight a few feet distant.

Captain Arthur S. Cowen, head of the

STATISTICS INDICATE
RECURRENCE OF FLOODS

NEW YORK, Feb. 9.—Statistics to show that there may be a repetition of the 1911 floods in the Ohio valley were completed today by the National Weather Bureau. Seventy cities on the Ohio and Mississippi rivers at present show a deficiency of 1.5 inches in average precipitation.

STONE ADMITS TOLLS PLANK PARTY ERROR

Repeal of Panama Act Has
Caused Much Concern
Among Democrats

NATIONAL HONOR AT STAKE

Missourian Says Occasion
Does Not Warrant Criti-
cism Already Aroused

WASHINGTON, Feb. 9.—Repeal of the provision of the Panama canal act exempting American coastwise ships from tolls, favored by President Wilson, is to be made a subject of consideration and action by a Democratic caucus of the senate.

This would be a wise and necessary course in the interest of party harmony and the nation's foreign policy, is the conclusion of administration senators who have discussed the subject with the president.

Post Leavenworth, Kan, would cease to be a federal prison under the terms of the bill and hereafter would be known as the United States Military Detention barracks. The prison would be modeled after the English army disciplinary institution at Aldershot and no soldier or civilian convicted of an offense punishable by penal servitude might hereafter be confined there.

EN DECLARE THEY WERE FORCIBLY HELD IN COAL CAMPS BY STATE MILITIA

HILTON TALES CONDITIONS IN MINE COUNTRY ARE LEAD TO SUPPORT PLAN

(Continued From Page One)
man which was represented, as being liable for raising wheat and alfalfa.

After signing the contract with a real estate dealer, he testified he was introduced to an employment agent, who agreed to secure him work near the land which he had arranged to purchase.

He found himself in a party of more than 50 bound for Trinidad, Colo.

He said he was taken from there to a place where the men were sent to a Japanese boarding house and the women to a hotel.

The men were sent to a coal mine operated by the Victor-American Fuel company.

On Christmas day, 1914, he testified, two companions and himself attempted to escape from the coal camp but were stopped after going three miles.

"Who stopped you?" asked James Lewster of counsel for the United Workers of America.

"State cavalrymen."

"How did they stop you?"

"Just pointed guns at our heads and told us to 'stick 'em up,' that is, put up hands up. We were marched back to the mine where I remained five days."

"Did the superintendent tell you that you couldn't leave until you had paid more money enough to pay for your stay?" asked Brewster.

"I was a 'mug' among the attorney, and Chairman Foster ruled out the question as leading.

Had to Pay for Tools.

It was reported in another form and the witness replied that the superintendent had told him that he could get it "May until he had paid for his tools."

He declared that he found out later that the company from which he supposed he had bought a Colorado ranch gave no land in the district where his property was alleged to be located.

When you got away, December 30, did the militiamen try to stop you?" asked the attorney for the miners.

No.

"Why not?"

"They were drunk."

"How do you know they were drunk?"

"Well, they got paid off on the twenty-ninth and were drunk the next day."

"All of them?"

"No, probably not all."

Another Mine Tells Story.

John Carroll, who said that in coming from Texas to Colorado he paid \$150 fare as far as Texline and "hopped" the rest of the way, was the next witness. He said that when he was a witness he was taken in the train at Trinidad, he was taken in charge by militiamen, who tried to march him to one of the southern Colorado mines.

"I said 'No' to 'makin' for mine,' but they kept on marching me toward a mine. They got me to the mine. I stopped and said, 'Look here, we might as well have this out right now. I'm not going in this mine.'"

"Were you ready to fight them?" asked Chairman Foster.

"Yes," replied the witness.

Colorado Mining Law.

Mr. Dalrymple then entered upon a detailed description of the Colorado mining law and the safety regulations now in force. He said:

"I don't believe any mine in the state complies with the new law in its entirety."

He explained that some of the mining companies had not been able to secure the required safety appliances, but that some had shown no disposition to observe the law.

"What are you doing about those conditions?" he was asked.

"Nothing; I haven't had time," was the reply.

The witness added that the law allowed him five deputies, but that he had been given only three and therefore had not been able to make the thorough inspection required by statute.

In response to questions, he said that 111 men had been killed in mine accidents in the last year.

Representative Austin asked:

"Mr. Dalrymple, why didn't you ask the legislature for a direct appropriation to support your office, so that you could carry out the work required by law?"

"I'd rather ask the devil for a transfer to heaven," promptly replied the witness.

Experience in Mines.

Toward the close of Dalrymple's testimony, Mr. Brewster asked the witness regarding his experience as mine superintendent.

"I was superintendent of a mine on the western slope," was the reply. "I quit when the company ordered me to fire some men who had been blacklisted by other companies. They were the best men I had and I couldn't get the coal up without them—so I resigned."

"Were they what are known as agitators?"

"Yes."

At the close of Dalrymple's testimony, shortly after 1 o'clock, the committee took luncheon recess until 2.

DR. CONCHA IS ELECTED PRESIDENT OF COLOMBIA

No man or woman who eats meat regularly can make a mistake by shooting the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of swelling, get about four ounces of Jadi Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and you will then act fine. This salt is made from the ash of 100% and has been used for generations to flush clogged kidneys and the salts are diuretic, also to neutralize the salts in urine so it does not irritate the bladder, thus ending the trouble.

It is astringent and cannot be overused.

FIRE DESTROYS MILL; LOSS PLACED AT \$150,000

WAUSAU, Wis., Feb. 9.—Fire started in an overheat motor today caused a loss of \$150,000 at the Brookside Mill of the Wausau Paper Mills company. The fire destroyed four buildings.

BOGOTÁ, Colombia, Feb. 9.—Dr. José Vicente Concha, the candidate of the Conservative party, has been elected president of Colombia. Dr. Concha was minister of war in 1901 and a year later became minister of foreign affairs. He disapproved of the proposed Panama treaty and retired as minister in 1903.

The elections, which were held Sunday, passed off quietly. Dr. Concha was opposed by Dr. Nicolás Escobar, the nominee of the Republican party.

The Liberals, several days ago, had chosen their candidate, General Rafael Uribe.

The new president will take office on August 7, when the presidential term of Carlos E. Restrepo expires.

GIRL PARALYZES SELF WITH STAB OF HATPIN

TOLEDO, Ohio, Feb. 9.—While pinning her hair to her head, worn down over her ears, Miss Maude Rodgers did not realize the direction in which she guided the pin. As a result she ran the pin through her ear drum and penetrated nerves which caused her to become speechless and deaf and paralyzed the left side of her face.

Edward Murphy was convicted of robbing a freight car at Caney City of a case of shark, the car being en route to Salt Lake City, Utah.

"Mothercraft" is bringing a prominent subject in the elementary schools of England.

WASHINGON, Feb. 9.—More than \$1,200 in national banknotes which disappeared from the treasury department within the last week have not yet been found and officials are much worried over what promises to be the first loss of that kind in 40 years.

Nearly thousand dollars in 10-dollar gold notes which disappeared during the manufacture in January are still unaccounted for.

WESTON BANKERS PRESENT CLAIMS FOR RESERVE BANK

AUSTIN, Tex., Feb. 9.—Secretary of the Treasury McAdoo and Secretary of Agriculture Houston, the regional reserve bank organization committee, today heard the bankers of Texas in support of their contention that a reserve bank should be established in this state to accommodate the cotton, cattle and grain interests of the Southwest.

Representatives from Houston, Fort Worth and Dallas set forth the advantages of their cities as financial centers. Several of the speakers favored St. Louis as a Texas city were not to be chosen. Kansas City was also suggested as a logical point. The committee will leave for New Orleans tomorrow.

PROBATE GATES WILL IN TEXAS; MINNESOTA GETS TAX

LONDON, Feb. 10.—(Tuesday) William Marconi has succeeded in lighting an electric bulb at a distance of six miles by a wireless current supplied from a 100-horsepower engine according to the Daily Mail. He hopes that the experiment will prove the forerunner, though not perhaps the present generation, of wireless power for the lighting and heating houses.

CHINESE EGGS PROTESTED AS UNDESIRABLE FOOD

SACRAMENTO, Calif., Feb. 9.—Eggs from China are not coming into this country without protest.

Acting upon complaint of the Sacramento Poultry Association of the Petaluma district, the state board of health has ordered an investigation of the charges that Chinese eggs, hatching in San Francisco may be bad food.

WESTERN GOVERNORS MEET IN DENVER TRAIN GO IN DITCH

Sioux City, Iowa, Feb. 9.—A broken rail on the Chicago, St. Paul, Minneapolis and Omaha train No. 2 at Madeline, Minn., today. One person was killed and 14 injured. None of the injured is believed to be fatally hurt. All the cars except one and the engine left the track. The all-steel equipment undoubtedly saved many lives.

The dead:

J. BEDDOME, 31, Superior, Neb.

The injured:

Jack P. Cullen, Sioux City; two hurt.

John A. Smith, 14, of Madison, Minn.; two hurt.

Miss E. H. Cleek, Minneapolis; shoulder and arm hurt.

John Achim, Halibut, Saskatchewan, Canada; face scratched.

A. Stapleton, La Salle, Ill.; ankle bruised.

W. H. Buckland, Menomonie, Wis.; back injured and face cut.

E. Phelan, South Omaha, Neb.; back hurt.

J. V. Rubble, Rosendale, Wis.; neck and leg bruised.

James Gibson, Minneapolis; express messenger; head lacerated.

J. Coleman, Minneapolis, brakeman; body bruised.

James Johnson, Minneapolis, porter; slightly hurt.

Frank Smith, Minneapolis, porter; minor bruises.

ST. PAUL, Minn., Feb. 9.—The wreck of the "Omega-Twin City Limited" passenger train on the Chicago, St. Paul, Minneapolis and Omaha road near Bigelow, Minn., today was caused by a break in rail, according to a statement given out at the office of the road's "general superintendent." The all-steel train, with the exception of the locomotive, turned over on its side.

Sleeping passengers had no change to prepare for the shock. It is therefore thought best to have the western governors conference in adjournment of the general meeting so that the conference suggested by Secretary McAdoo could be very properly held at the time of the western governors' conference and its result if found necessary be brought to the attention of the general conference.

The subjects to be discussed would be of vital importance to this state and the entire west. There never has been anything so vital to the agricultural growth of the Rocky mountain country as the handling of water rights and the development of irrigation systems. If this proposed meeting could bring about not only a greater cooperation between the federal and state governments, but should work out some practical system for throwing up safeguards about irrigation supplies, the very greatest possible benefits would be to the west.

It is hoped that a visit my Mr. McAdoo will come to Denver, which is the center of the Rocky mountain district, who may not afford to go to Washington. Therefore a very much larger attendance could be held at Denver and it is therefore suggested that Denver should be chosen instead of an "out-of-the-way" city for doing it."

Governor Ammons was seated at the interest in western lands which Secretary McAdoo evidenced by his request for a conference with western governors and declared that he believed a most amicable arrangement for the reclamation of desert lands would be reached between state and federal governments.

WASHINGTON, Feb. 9.—F. F. Palmer, the new director of the U.S. Bureau of the census, has assumed his duties, according to the Bureau of the census. The bureau is to be headed by a man who has been working for the bureau for some time.

This man will be responsible for the preparation of the census reports.

WASHINGTON, Feb. 9.—The Senate today passed the fortification appropriation bill for artillery and ammunition.

Preparedness of the United States for war was debated in the Senate during consideration of the fortification bill to which the Senate's switch has added nearly \$2,000,000 over the house's appropriation for field artillery and ammunition.

Senator Bryan said the increased

were made to meet as nearly as possible the estimate for an army of half a million men.

"If there are only 76,000 men in the army now, why should we have an army of a half million men?" asked Senator Sheppard.

"So as to be prepared for war," replied Senator Bryan. "While we had only 20,000 men operating around San Diego in the Spanish American war, we had some quarter of a million men enlisted. With this allowance of guns, America would still have less guns per man than any first class power."

"We would have about the same proportion as Bulgaria and Servia. We should remember it takes years to make these guns."

MEXICO BETTER PREPARED.

"Think of the great Pacific coast without enough powder to last 30 minutes under attack," exclaimed Senator Warren.

Senator Smoot said the lack of ammunition was almost criminal.

"Even Mexico possesses more mobile guns than we do," he said.

Senator Ashurst attacked the appropriations as extravagant.

"We are now spending 65 cents of every dollar raised by the federal government for wars past or which we think or pretend to think, are in the future."

Senator Sutherland challenged his figures.

Senator Ashurst retorted there were "patriots for profit only" in the country, who filled the country with alarms of war because they had arms, plate or powder to sell."

Senator Chamberlain, chairman of the military committee, pleaded for a most efficient army as the method of keeping peace.

"I don't think I am out of place in saying that the situation now confronting this country is a definite one," he added.

"I hope we never will have trouble, but we ought to be prepared for trouble if it ever comes."

MARCONI LIGHTS BULB BY WIRELESS SIX MILES AWAY

LONDON, Feb. 10.—(Tuesday) William Marconi has succeeded in lighting an electric bulb at a distance of six miles by a wireless current supplied from a 100-horsepower engine according to the Daily Mail.

He hopes that the experiment will prove the forerunner, though not perhaps the present generation, of wireless power for the lighting and heating houses.

CLOTHING FOR MEN

Daily Fashion Note.

Copyright, 1914, by The Criterion of Fashion.

NEW YORK, Feb. 10.

Bear Mary.

It would be difficult to say whether this female were coming or going, but that is not important. She is one of those decorative people who have nothing to do but wear clothes and direction no object.

This is an attractive little wrap of karakul, with a nifty-and-becoming collar of fox. It crosses over in back, surplices fashion, and does very well as a protection for the chest and shoulders, but what about the lower extremities, with their guaze-like coverings of silk?

Grandmother used to say—"Oh, pride will keep her warm," but in this case I am afraid pride would have a big job. Women are supposed to be the weaker vessels, but I have seen men shivering around in heavy overcoats, good warm suits and goodness knows what-all underneath while their companions walked stably about like the lady of the picture. Do you think for a moment that a man could stand being deluded of everything but his silk hose and a pair of trousers on a December day?

Really, dear, if we women did not

have to think so much about clothes and had time to put our minds to work on other problems, men wouldn't stand a ghost of a show in politics or anything else.

Yours confidently,

Adella

Deaths and Funerals

The funeral of E. Arthur Jones of Appleton, Wis., was held yesterday in Denver. Mr. Jones was the husband of Mrs. Hazel Carter Jones, formerly connected with the Hartman school of this city. He was well known in this city.

The funeral of William Van Schuyver will be held this afternoon at 2 o'clock from the Foerstmann & Root undertaking rooms, Colorado City. The Rev. Mr. Gunz will preach the service. Interment will be in Fairview cemetery.

The funeral of Joseph Wilson, aged 73 years, who died Sunday night, at his home, 325 East Dale street, will be held at 2:30 o'clock this afternoon from the Hallett & Baker undertaking rooms. Interment will be in Evergreen cemetery.

Mrs. Maudie Merritt, aged 66, died early yesterday morning at a local hospital. She is survived by five daughters and two sons: Mrs. Etta Irwin, Denver; Mrs. Minnie Hammond, Sacramento, Cal.; Miss Anna Merritt, Colorado Springs; Mrs. Ada Spradling, Los Angeles; Mrs. Belle Vosburg, Yoder, Colo.; John Merritt, Colorado Springs; and Edward Merritt, Arnel, Colo.

Mrs. Irwin, Mrs. Hammond, Miss Merritt and John Merritt are in this city and Mrs. Vosburg and Edward Merritt will be here to attend the funeral which will be held at 2:30 o'clock tomorrow afternoon from the Fairley's undertaking rooms. Interment will be in Evergreen cemetery.

\$813.300 SUBSCRIBED FOR DENVER REGIONAL BANK

DENVER, Feb. 9.—A total of \$813,300 individual subscriptions to the capital stock of the regional reserve bank which Denver is endeavoring to secure, had been subscribed at noon today according to figures given out by the committee in charge.

TO BOOST FOR SANTA FE'S SILO TRAIN; HERE FEB. 17

Chamber of Commerce Will Also Display Special Oats Exhibit at Dallas Corn Carnival

A special committee to arouse interest in the silo and dairy train of the Colorado Agricultural college and the Santa Fe railroad, which will be here February 17, was appointed at a meeting of the agricultural committee of the Chamber of Commerce yesterday. The committee consists of John Lemmon, J. B. Fowler and County Commissioner Kennedy. The demonstration train will carry farm exhibits of all sorts and also a corps of agricultural authorities to lecture on the different scientific phases of farm work.

Plans were also discussed yesterday for the establishment of a Colorado Bureau at the International Corn exposition to be held at Dallas, Tex., this week. For some time the Chamber of Commerce has been working in conjunction with the State Agricultural college to insure an elaborate exhibit of this state's products at the fair.

Special effort will be made to make a good showing in oats in an attempt to return to Colorado the oats trophy originally put up by this state, but the last two years won by Canada. Under the terms by which the cup was offered, the state or county first winning the cup three consecutive years becomes the permanent owner. Therefore it is up to Colorado to see that Canada does not land the trophy this year or that country will become the permanent possessor of the cup.

A special exhibit of oats from the San Luis valley, to be in charge of A. A. Keyser of the State Agricultural college, and Mrs. Emma T. East, assistant secretary of the Greater Colorado bureau of the Chamber of Commerce, will be sent to Dallas.

BIRDSALL'S HANDWRITING FIGURES IN ORRIS CASE

Sheriff Pens Signatures to Documents Which Defendant Identifies as Written by Mrs. Cockrell

The prosecution in the trial of John Birdsall, sprung a surprise in the district court yesterday when Sheriff Birdsall testified that the Birdsall had signed the name of Mrs. Sarah B. Cockrell to two papers, purporting to be bills of sale transferring property to Orris.

It is claimed that Orris, acting as agent for Mrs. Cockrell who is a widow, appropriated \$3,000 worth of her property to his own use. The two supposed legal papers were identified by Orris as having been signed by Mrs. Cockrell in his presence. Sheriff Birdsall then took the stand and said that he signed the papers. The ruse was carried out for the purpose of testing Orris' credibility as a witness.

Motions for a direct verdict in favor of the defendant and to quash the information were made yesterday morning at the conclusion of the state's evidence. Both motions were overruled by Judge W. S. Morris. The case probably will go to the jury this morning.

ITALY WILL SEND SHIPS TO OPENING OF CANAL

NAPLES, Feb. 9.—Orders were received today from the Italian minister of marine for the preparation of Italian war vessels to participate in the international naval gathering in connection with the opening of the Panama canal.

It is expected that Rear Admiral Eugenio Trifari will be in command and that the vessels under him will be the armored cruisers *Pisa*, *San Marco* and *Amadeo*.

OUTSIDE THE PARTY FOLD

UNDER the heading "Still Outside the Party Fold," the Philadelphia Public Ledger, a standpat Republican paper, prints a brief dispatch from Portland, Maine, announcing that the Progressives of that state have definitely rejected proposals of the Republicans for amalgamation, and will place a complete ticket in the field for the November election.

There is nothing extraordinary in this action of the Maine Progressives. In turning a cold shoulder to the Republican amalgamators they have only followed the example of Progressives in all other states where definite action has been taken. Their decision is in entire accord with the spirit of the party throughout the land. There isn't a real Progressive from Maine to California who really wants or expects his party to commit suicide by aligning itself with the Republicans.

The only thing about the Ledger's dispatch that inspires comment, then, is the headline: "Still Outside Party Fold" is interesting insofar as it shows the persistence with which the Republicans cling to the delusion that Progressives are merely runaway schoolboys who have not yet been lured back to the Republican fold where they belong. Of course the leaders of the Republican party know better and every intelligent Republican editor knows better, but the pretense is maintained in the hope of deluding the public. They hope to instill courage in the dwindling ranks of the G. O. P. by assuring the faithful few that soon the Progressives will "crawl back into the fold," and vote the straight Republican ticket next fall, thereby restoring the party to its old-time power and prestige.

This innocent deception grows more futile daily. There is not a keen observer of political conditions in the country but knows full well that instead of being mere traitor Republicans the Progressives are now a united political party, perfectly organized and intelligently led. Moreover, they are in nearly every state, second only to the Democrats, with the Republicans a poor third. And the only change in this relationship that seems probable is a change in the relative positions of the Democrats and Progressives in some of the states in consequence of the November election.

PEACE AND GOOD WILL IN DENVER

IF DENVER manages to exist intact throughout the seven days between now and its special water election it will do better than can reasonably be expected of it. Already the pressure has reached the exploding point. The newspapers and the leaders of each faction in the fight have called each other all the names in the category. The public has been warned, cautioned, exhorted and cajoled. Everybody knows, or ought to know, that if Denver adopts the plan of the Retailers' Association it will immediately become the most beautiful and prosperous city in America, or will sink into utter desolation depending on which paper you read. And everybody knows that precisely the same thing will happen if it rejects that plan.

Really, the condition of Denver should cause worry—we use the term in its literal and not in its slang application. People up there who are interested in the water fight and that includes nearly everybody simply can't hold in any longer. Yesterday, according to the news reports, Mr. Thomas J. O'Donnell, pulled a gun on Mr. Fred G. Bonfils, with felonious intent, whereupon Mr. Bonfils objected, and Mr. O'Donnell desisted, and the spectators were immensely interested. Now Mr. Bonfils has had Mr. O'Donnell arrested on a charge of assault with intent to kill. Mr. O'Donnell says he was justified in drawing first because he had been warned that Mr. Bonfils was carrying a gun for him.

All of this is delightfully reminiscent of the early days when Denver had real gun-fights by real gun fighters. Of course, the other party to the encounter yesterday is in a class; their pugnacity is always vested with tongue or pen rather than

with guns and fists. But such unscrupulous are unwholesome just the same, for they get on the public's nerves. Before, last Tuesday people in Denver will have come to think that the issue of the election is the relative merits of O'Donnell and Bonfils rather than the disposition of the water system. Perhaps, though, they will vote as intelligently in the one case as in the other, for the situation is already so hopelessly muddled that nobody clearly understands it.

SAFETY IN STEEL CARS

THE introduction of the all-steel passenger coach two of three years ago was one of the most notable advances in safety in the history of American railroading. Loss of life in railroad wrecks is due to two principal causes—the crushing and grinding of flimsy wooden cars, and burning. But the all-steel coach cannot telescope, for it is securely braced, like a steel bridge or building. And of course it cannot burn—unless the management is so foolish as to fill it with wooden seats and other inflammable material, which isn't likely to happen.

Three or four months ago a wreck on one of the Eastern roads showed, however, that the steel car is not an infallible life preserver. An accident which hurls a train from a bridge, or sends the cars rolling down an embankment, is pretty likely to kill somebody whether the cars are smashed or not. Nevertheless it is plain that the improved type of construction is vastly safer than the old.

In the wreck at Bigelow, Minn., yesterday the train was turned on its side when the locomotive struck a broken rail. The entire train was of steel. The Pullmans were filled with sleeping passengers, yet only one person was killed. Under like conditions wooden cars would have been torn to pieces with an appalling loss of life.

Steel cars are costly and their greater weight adds to operating expense. But after all, safety in railroading is largely a matter of incurring expense, and only the roads that are willing to pay the price of modern equipment and perfect roadbed can attain safety. The others will continue to have wrecks as long as the public will permit them to do so—which, unless all signs fail, will not be much longer.

THE SINGLE TAX.

To the Editor of The Gazette: The book entitled, "The Taxation of Land Values," by Louis P. Post, now being distributed by the Single Tax League in their campaign, frankly states that the prime object of single tax is to deprive the citizens of the right of private property, by placing the entire burden of taxation upon land alone. When asked if they think this to be fair to the individuals who have invested in real property under the present laws and customs of society, they emphatically answer yes, claiming that everyone has had constructive notice through this single tax agitation that the laws of business are to be changed and their property confiscated.

I would like to ask what right a few demagogues who desire political office, with a following made up mostly of acknowledged failures, as well as including the vicious elements of society, have to deprive men of one of the fundamental rights of society? I mean the right of private property, which is second only to the rights of personal security and of personal liberty, a right which has been recognized to be the greatest factor in the upbuilding of every nation, by stimulating a man to put forth his best efforts and by giving him the benefit of his industry and services to society. Sir William Blackstone, in his "Commentaries on the Laws of England," written about 1765, includes this right among the natural rights of humanity, and necessary from the very fact of man's existence.

For many, many years before the discovery of America the Indian occupied the territory, now known as the United States under a perfect example of communistic government. That is, the land was all held in common, and as far as we are able to tell, it would have remained in common forever under his management. But the Indian had at least one advantage over the citizens of today under that system, in that he had no taxes to pay, and in that respect at least, he is closely resembled by a large part of the single tax and Socialist party of today.

H. S. MAC MARTIN.
20 South Tejon street, Colorado Springs, Feb. 9.

To the Editor of The Gazette:

Mr. "Single Tax" asks me how the single tax will devour widows' houses. The answer is simple. When vacant lots, through taxation, all belong to the city—and this is the acknowledged aim of all genuine single taxers—land will be practically valueless. The prospective buyer of Mr. "Single Tax's" home will say to him, your home is worth the cost of your house and fence, and no more, for I can get plenty of land for the asking. It is true I shall have to pay "the rental value" in taxes, but I shall need to do that whether I take a city lot or yours. Your lot is worth nothing, and will sell for nothing.

Do you seriously believe the money lender will ignore such a situation? You must indeed be simple minded to expect such a thing. Your money lender cares nothing for your theories, but asks what is your security. The value of improvements always decreases, and if the land value also is on the high road to obliterating, your security is poor indeed.

The payment of your loan will be demanded.

In Colorado Springs for many years the increase in the value of vacant lots has been far less than 5 per cent per annum. Add to this the amount paid in taxes, and it is safe to assert that for the last 15 years every owner of vacant property has lost money. Speculators who have carried such land have not been recruited from men who appreciate the ultimate power of interest. Most of this land belongs to people of small means, and in Colorado Springs the rich land speculator is a single tax myth.

RANK STOCK HOLDER.

GIFTS AND GIFTS

Buster Abbott says he is going to toss his father's gifts into a segment on the women suffrage segment. And guess how they did it!

Guy U. Hardy of the Canon City Record was just issued the first number of a new monthly, "The Colorado Fray, for the exclusive use and benefit of Colorado newspaper men. If it were issued by anyone else, who'd say it couldn't be did, but Guy U. is an ardent little business beginner. Here's hoping he's genuine right away.

Representative Adkinson says it doesn't matter if face to face were demanded in the Democratic platform; the plank had no business being there. But if Mr. Adkinson removes from the platform all its foolish planks, what will be left to stand on?

When the congressional investigation, with power to summon witnesses, arrived in Denver, operators met miners as merrily as if they had been bob-robbing together constantly. We need a law that will make capital and labor get together and talk things over.

After all, the greatest argument for peace in Europe is the Socialist party. In all countries it is found uniformly opposing war and in armed armament.

J. W. W. Rogers in California frankly says they want conditions so bad that rotted as possible in order that they may go to war. Yet standards won't see the need of the Progressive party.

Public tax of 1914, says George Clark, are notoriously honest. But it may be, my batch is still a mighty poor imitation of a 1914 sister tax.

Mr. Fred Daniels and wife both drive down Custer, the trout who goes to a "picnic" trip of 10 miles to death in a blinding tunnel. There are limits, it seems, even in Mexico.

If the dentists are willing to do the job without charge, surely a wise public ought to supply the equivalent for a dental clinic in the park. And after a while, the dental board will probably awake to the fact that this is a most necessary part of its work.

It may be the harbinger of winter is not yet broken, as the weather man warns, but somehow, in spite of the weather man and the stomach, we have an idea old winter is decidedly gross.

There's only a week more of the Denver water fight. But there'll be something else to scrap about.

The Republic club of Denver has been forced to disband the Colorado Republican party in this state. And what will tell us this is not an age of faith!

Hen. Clark football players will be based from the sidelines. That will put a premium on quarterback with brains enough to run a team.

Once more the right of the Colorado railroad corporation to order a reduction in rates has been upheld. After this matter has been in the courts forever or a dozen years maybe will actually have rate reductions.

Even the newly established Colorado Republic is getting a slice of the Denver Water Company advertising. Somebody is spending a lot of money to "cash" that franchise.

El Paso county Progressives will banquet at "Lincoln on Lincoln's birthday."

P. H. Clark are said to be the new Calumet Coal Co. as a presidential candidate in 1916. Are we willing to overlook the fact that he's a P. H. Clark?

It is barely possible that one of those Pennsylvania girls will find the first time, must be a great joy to the clerk, for there are so many women who do not do this, and they use up so much of her time and energy.

While waiting for my change at the drapery counter the other day I witnessed the following little scene:

Shopper: "I want some curtain scrim with a little yellow in it."

Clerk: "Pulling down one of the big rolls of cloth. Something like this?"

Shopper: "Oh, no, I want pure white, not cream."

Clerk: "After tugging down another roll—"Here is something very pretty in white."

Shopper: "Yes, that's pretty, but I didn't want a yellow stripe. I wanted a figure."

Clerk: "After climbing up and reaching far above her head and procuring, with considerable effort another roll—"Here's a very pretty one in a small figure."

Shopper: "Yes, that's nice. But I don't want a room with cases and I want something different for this one. Haven't you anything in a small conventional design?"

Clerk: "Wearily produces two more rolls: customer examines them both critically, then asks: "What did you say the price was?"

The clerk hadn't said, because she hadn't been asked, but she announced that it is 50 cents.

Shopper: "And haven't you anything less than 50 cents?"

Clerk: "I have very much that sort of thing for 25 cents."

Clerk: "Patiently moves down to that part of the counter where the 25-cent draperies are kept, and being now armed with a knowledge of exactly what the customer wants, picks out three rolls which answer that description."

From one of these the customer finally buys:

Now, just consider the tugging about of heavy rolls of cloth which would have been saved to the shopgirl and the time that would have been saved to both of them if the customer had said at once, "Will you please show me something for about 25 cents, in pure white curtain scrim with a yellow border, in some small conventional figure other than roses?"

She knew what she wanted; she had been looking in other shops, as her reference to J. J.'s goods proved, and there was no reason on earth why she couldn't have asked for what she wanted in the first place.

We all know that the shopgirl's life is none too easy. If we have any heart within us we sometimes feel sorry for her.

There is a chance to translate our sympathy into help by finding out just what we want and asking for it instead of forcing her to discover it by a lengthy and difficult process of elimination.

The Telluride Examiner says either Frank Goudy or Clyde C. Dawson will succeed Charles S. Thomas in the United States Senate. If the Examiner is willing to back its prediction with good coin it will find no difficulty whatever in placing as much money as it chooses, without leaving the state.

The Greeley Tribune-Republican wants a drama league in that city. When it comes to cutchaw they bite it off in chunks in Greeley.

Not yet does it appear that by thoroughly arming the fighting men of Villa and Carranza the United States is going to make it any easier for her own soldiers when the inevitable march into Mexico shall be reluctantly and belatedly ordered.—New York American.

William Randolph Hearst is going to annex Mexico, no matter what others may say.

THIRTY YEARS AGO TODAY

FEBRUARY 10, 1884.

The Rev. R. T. Craig of Denver had exchanged pulpits for the day with the Rev. J. B. G. of the First Congregational Church, which were being held at that time in the Opera house.

John Himesbaugh returned from his trip to Garfield county.

A number of prominent mine owners met in this city and decided to hold out against the Cripple Creek miners' demand that working hours be reduced from nine to eight.

TWENTY YEARS AGO TODAY
FEBRUARY 10, 1894.

The continued low price of silver,

which was at that time selling at about

65, caused an agitation to shut down

all the silver mines in the country to

cause a rise in price.

John Himesbaugh returned from his

trip to Garfield county.

A number of prominent mine owners

met in this city and decided to hold out

against the Cripple Creek miners' de-

mand that working hours be reduced

from nine to eight.

normal mental and physical condition is naturally averse to crime. From various causes he may, in the course of time, become a chronic delinquent, or he may lose his balance but for a single moment, the unhappy moment in which he loses but, at any rate, he is in some way and to some extent "out of balance"; when the "deed" is done, in most cases he at once recovers, immediately regrets his offence and is thorough on his guard thereafter that he never commits crime again. But the other class, the worse, and unfortunately the less numerous class, never recover their equilibrium, indeed, they ever had it, and they go on in crime, because they cannot help doing so.

KEATING GETS GOOD ROADS BILL AMENDED

WASHINGTON, Feb. 9.—Detailed consideration of the good roads bill kept the house busier today. Scores of amendments were offered to the measure, but only one change of importance was made. An amendment by Representative Keating of Colorado, which would give each state in the Union a minimum of \$65,000 from the \$25,000,000 to be appropriated for federal aid to the state construction of roads, was adopted.

Representative Bogard of Missouri, in a pointed attack on the measure, asserted that the plan would not result in increasing the general standard of roads throughout the country. He characterized the bill as a "pork barrel" measure, intended only to satisfy the demands for aid from the federal treasury.

Specialists Study Case of McCleery

SAN FRANCISCO, Feb. 9.—Between now and Tuesday of next week Dr. Milton E. Lomonaco, San Francisco specialist in nervous ailments, and Mr. Theodore Borthers, a member of the state board of lunacy com-

missioners, will observe the conduct of Walter A. McCleery, legally incompetent millionaire polo player, to determine whether or not, in their judgment, he has regained full possession of his faculties. In the meantime, H. H. McElroy, the attorney appointed his legal guardian in 1912, will do his utmost to get the mother, brothers and sisters of McCleery here from the east and Europe, to tell the court whether or not they are willing that the poloist should be given back the right to manage his own affairs.

Such was the order today by Superior Judge Graham, after he had listened to attorneys argue motions and read affidavits, and had examined the millionaire himself.

Judge Graham asked McCleery today whether he felt all right, and knew what was taking place in the court. The millionaire replied that he was normal and fully appreciated the situation.

While McCleery is held incompetent in California, he is competent in England.

BLANKET FLOPS CARUSO TO STAGE DURING PLAY

NEW YORK, Feb. 9.—Enrico Caruso, still sprawling on the stage in the middle of the second act of "The Girl of the Golden West" at the Metropolitan. His star got tangled in the blanket in which the heroine, Miss Dostine, as Minnie, the girl of the golden west, had hastily wrapped herself.

It was fully a minute before the tenor got untangled and then limped off.

"Blue" Feeling

It may be that your liver is tired and refuses to work, or your digestive organs have had too much to do and need care. Perhaps you have been eating the wrong kind of food, and your blood is too rich or impoverished. What you need is a tonic.

J. Price's Golden Medical Discovery

will give the required aid. The Liver is strong. The liver vibrates with new life. The blood is strong. The body is strong. Life has a worth while. Life has a meaning. Dr. Price's Golden Medical Discovery.

GLOVER IS HELD TO THE SUPERIOR COURT ON MURDER CHARGE

LOS ANGELES, Feb. 9.—Roy L. Glover, land agent of San Antonio, Tex., charged with the murder of his wife, a former husband, Daniel De Villiers, soldier of fortune and Boer War veteran, was held to answer to the superior court at the conclusion today of a preliminary hearing which ended abruptly after a witness charged that an attempt had been made to influence him.

Glover's attorney, at this turn of affairs, declared no testimony would be offered in behalf of his client and the land agent's hopes of being cleared on a plea of self-defense were shattered again, as they were when a coroner's jury failed to exonerate him some weeks ago. He was held for trial with his bond of \$15,000 standing.

The charge alleging an attempt to use influence was made by Charles Spielman, a messenger boy, who accompanied De Villiers to the home of his former wife here December 21 last, and who saw the scuffle which ensued between De Villiers and Glover when the former tried to force his way into the house. Spielman testified concerning the shot fired and the wounding of Sir Villiers, who died soon after on a sofa in the Glover residence.

Spielman Confessed.

Spielman was subjected to a severe cross-examination and what the prosecution declared was an "unfair attempt to impeach him" was made by Glover's attorney, who succeeded in confusing the messenger.

An Spielman stepped from the witness stand he cried out:

"They tried to frame me! They tried to frame me!"

Asked by the police judge what he meant, Spielman said that soon after De Villiers' death he had received a telephone summons to a saloon and, responding, had been met by two men.

"They asked me what the district attorney had ever done for me," said Spielman, "and what favors I expected to get from him. They said: 'De Villiers is dead, Glover is alive. What do you want to line up with the dead ones for?'

"There," added Spielman, pointing at a man in the court room, is one of the men who tried to frame me."

A commotion ensued. The prosecutor said no immediate action would be taken against the man accused by Spielman.

TAKES MAN FIVE DAYS TO COMMIT SUICIDE

ST. LOUIS, Feb. 9.—Five quarts of pure alcohol, which he drank in five consecutive days, enabled Louis A. Rohling, 55 years old, to make good his threat that he would end his life. He died from the effects of the alcohol. Rohling's wife, Christina, told the police her husband had been out of work since the first of the year. Mrs. Rohling said that on January 19 her husband told her he was tired of living and would drink himself to death. That day he drank a quart of alcohol. He repeated this on each succeeding day until Friday afternoon, when he became unconscious.

When the bowels become irregular you are uncomfortable and the longer this condition exists the worse you feel. You can get rid of this misery quickly by using HERBINE. Take a dose on going to bed and see how fine you feel next day. Price 50c. Sold by all druggists. Adv.

LORD AND LADY DECIES LEAVE DENVER FOR WEST

DENVER, Feb. 9.—Lord and Lady Decies, accompanied by Mr. and Mrs. O. B. Huntsman, left Denver shortly after midnight over the Denver & Rio Grande railroad for Salt Lake City and San Francisco. Lady Decies, second daughter of George J. Gould, and her husband, who spent several days in Denver, are making a tour of the Gould railway lines.

SUCCESSFUL EVERYWHERE

People everywhere are talking of the quick and fine results Foley Kidney Pills give in backache, rheumatism, kidney and bladder troubles. You can unknowingly sold for 50 cents, is one of the deeds attributed to Charles Bender, otherwise known as "Black Tony" Ciriello, a 18 year old youth who confessed to the police here Saturday to murder and robbery.

Detective John Dunn of Omaha arrived here today with a reward of \$200 which he paid to the officers who apprehended Bender and left today with the prisoner in his custody. Dunn declares a long chain of crimes is included in the lad's career, among which were several perpetrated in San Francisco and which caused a police shake up in that city.

It was following a hold up in Omaha that Bender, Dunn says, took possession of a pal's grip by mistake, believing it was his own. The grip contained diamonds instead of revolvers, was supposed by Bender and was sold by him intact for a half dollar.

CONNELLSVILLE, Ind., Feb. 9.—A mule, a buggy and the driver, Mrs. Jessie Abernathy, rolled down a 20-foot embankment into Whitewater River, five miles south of here, when the mule was fed a chaw of tobacco by men working on the Nulltown bridge. The animal kicked the vehicle into splinters and smashed the top over Mrs. Abernathy's head. The men pulled her from the wreckage and released the struggling animal. The woman's injuries were not serious.

PAUL PRESIDENT TOOK FUNDS, CHARGE BY THE DIRECTORS

MEMPHIS, Tenn., Feb. 9.—H. Raine, president of the Mercantile bank, one of the leading financial institutions of the city, was charged with embezzlement in a warrant sworn out today by Z. N. Eaton, county attorney. The accounts of the bank, which is a state institution, are alleged to be short by \$700,000 and \$100,000.

Ten directors of the bank, one of the most important financial institutions in the city, today filed a petition in chancery court charging that the bank was insolvent as the result of the alleged misappropriation of more than \$750,000 by C. Hunter Raine, president of the institution.

In the petition Raine was held solely responsible for the apparent shortage, apparently \$700,000, which it is charged he obtained "by a system of padding the bank's drafts, property and exchange in such a way as to develop the directors and conceal his misappropriations," the total amount of which, it was alleged, he lost in speculation.

Liabilities and Assets.

The petition places the liabilities of the bank at approximately \$2,196,594, with assets of \$1,408,089. In published statement January 9, liabilities were given as \$2,486,107. At that time the total deposits were \$1,761,108, of which \$844,233 were savings accounts. The bank is capitalized at \$200,000 and has a surplus of \$100,000.

Resources, loans and discounts at the time of the statement amounted to \$1,180,496; actual cash on hand was \$424,764; sums due from other banks amounted to \$488,165; cash items in transit amounted to \$127,778. These amounts with others balanced the amount given as liabilities.

The alleged discrepancy was discovered by a representative of the bank who went to Memphis last week to audit the books of the Mercantile bank when loans required were found to be out of proportion to the amounts usually asked for at this season of the year. His report to the directors yesterday which brought the situation to a climax was the first intimation that the bank was not in a prosperous condition, according to the directors. It is stated that President Raine, who attended yesterday's meeting, absolved all of the officers and directors of the bank of implication in alleged shortages and tendered his personal estate, which he valued at \$850,000, to the bank. So far he has made no formal statement.

The bank was ordered to remain closed today by state banking officials, who are making an investigation of its affairs.

MULE KICKS ON 'BACCY' PUSHES BUGGY IN RIVER

CONNERSVILLE, Ind., Feb. 9.—A mule, a buggy and the driver, Mrs. Jessie Abernathy, rolled down a 20-foot embankment into Whitewater River, five miles south of here, when the mule was fed a chaw of tobacco by men working on the Nulltown bridge.

The animal kicked the vehicle into splinters and smashed the top over Mrs. Abernathy's head. The men pulled her from the wreckage and released the struggling animal. The woman's injuries were not serious.

THE DAY'S HAPPENINGS IN SPORT CIRCLES

Edited for THE GAZETTE by T. W. Ross

**SANDED MAGNATES
ARRIVED AT VISIT
OF FEDS PROMOTERS**

**Will See Party If
Gentlemen Propose Any Third
of Power Pact**

YOUNG, Feb. 9.—Major and minor baseball magnates gathered at the hotel to discuss the meeting of the various managers and owners of the Federal League. They were anxious to learn today that the leaders of the so-called outlaw were on their way here from Chicago and that it was their purpose after confer with the men of organized ball, as was held.

only solution that these magnates, including Barney Dreyfuss, Charles Ebbets, C. W. Murphy, W. P. and F. J. Navin, could offer was James A. Gilmore, president of Federals, and Chas. H. Vaughan, William A. Walker, backers of the Federal League club in Chicago, to propose some peace pact or promises measure whereby the Federal League could become recognized and affiliated with organized ball. Should this be the object of the major league club owners, it is expected that the trio would receive early recognition.

President Murphy of the Chicago club, when asked if he would vote recognition of the Federal League, or to compromise with its proposal, declined to answer the question, claiming that it would not be fair to his colleagues to express judgment before the meeting. He agreed to stand his version, he said.

If I were an admiral on a battleship, and Gilmore rowed alongside me in a 22-caliber rifle, do you think I'd bend?"

President Baker of the Philadelphia club was more outspoken. "The Federals have done our club damage they can," he said. "Now have I to gain by meeting them for a conference? So far concerned, they are outside the fold, and you'll not find me opening state."

**FIGHT TOURNEY
OPENS WITH 10 BATTLES**

**Contests in All Classes
Are Started; Two Wrestling
Bouts**

Five Aspirants for the Middleweight Championship

Five men now stand out prominently in the contest for the middleweight championship of the United States. One of them may develop within this year and then there will be a champion in a class which has had none for years.

These are the candidates:

George Chip (whose real name is Chipionis), born in Scranton, August 28, 1888.

Jimmy Clabby, born in Norwich, Conn., July 14, 1890.

Eddie McGroarty, born in Oshkosh, Wis., July 21, 1888.

Mike Gibbons, born in St. Paul, July 20, 1888.

Lee Houck, born in Lancaster, Pa., November 4, 1889.

They are virtually all of the same age and weight. The eldest is Mike Gibbons, who is within a few months of 26, and the youngest is Clabby, who is within a few months of 24 years.

If 20-round fights could be given in Wisconsin, "scratches" and New York where most matches are made these days, it would not take long to develop a champion from these sturdy boys. But few sparring men are inclined to consider seriously the next bout.

Jimmy Clabby's ability is known. He is one of the cleverest boxers in the country, but for some reason he has not been pushed ahead. Though he has beaten Mike Gibbons, St. Paul's clever middleweight, he has not been given the credit the victory warrants.

Gibroarty, now in Australia, is one of the toughest men in the business. He has a wonderful left hand, which made Stanley Ketchel famous. Clabby has used it to good effect in many bouts.

Mike Gibbons' ability is known. He is one of the cleverest boxers in the country, but for some reason he has not been pushed ahead. Though he has beaten Mike Gibbons, St. Paul's clever middleweight, he has not been given the credit the victory warrants.

Gibbons, who is now matched with

Patrick McFarland, is suspected of being a little yellow. He fights like a champion against a man without a

shoulder, but he fails to show much against one who can hurt him. His contest with McGroarty was a very great disappointment to those who thought he was a world beater. He has far more cleverness than most other men in the ring today, and he carries a hard left hook and a powerful straight right. On paper he looks like the best middleweight in the ring, but if he really fears punishment it is unlikely that he will ever be a champion.

Lee Houck is one of the toughest customers Philadelphia has ever turned out, and many hard fighting men have come out of the six-round bouts of that city. He has whipped most of the men he has met, and it is likely he would make a good long-distance fighter.

California is now the only place

where championship bouts may be staged, but most of these middleweights have failed to make themselves good drawing cards in either

Los Angeles or San Francisco. Most of their fighting has been done in the middle west, where the bouts are short and the purses small.

Cripple Creek Mines

LITTLE KING AND QUEEN CLAIMS TO BE WORKED

CRIPPLE CREEK, Feb. 9.—The Little King and Queen mining claims, on Gold Hill, adjoining the Midget and Bonanza King properties, owned by the Midget-Bonanza Gold Mining and Milling company, now active under lease to the Back of Leasing company, have been secured under a two-year lease by the last named corporation and are to be blocked out for leasing purposes.

The Queen and Little King claims, embracing 10 to 12 acres, were originally owned by the Ben Hur Mining and Milling company, incorporated in June, 1892, but have passed through judgment or tax deed to F. H. Pettingill, the former president of the company, and J. J. Phillips, former Colorado Springs mining men, now residents of California.

The properties have been partially developed by shaft, and are intersected by the Good Will tunnel, cutting the shaft. Low grade ore has been exposed and light production of milling grade ore has been made, but of late years the properties have lain idle.

It is now planned to further develop the territory from the deeper workings of the Midget shaft and favorable

working terms will be made to prospective lessees both with regard to working conditions and royalties.

A good grade of ore is being mined in both the Midget and Bonanza King mines, and there is every reason to expect that the shoots opened up close to the boundary line between the Midget-Bonanza and Old Ben Hur claims, will continue into the unexploited ground south.

UNION LEASING CO. HAS
RESUMED SINKING SHAFT

CRIPPLE CREEK, Feb. 9.—The Union Leasing company, operating the Gold Sovereign mine on Bull Hill, under lease from the Gold Sovereign Mining and Tunnel company, has resumed sinking and the shaft is to be sunk an additional 100 feet. The work is being carried on by M. Johnson, who secured the contract, and two shifts are employed. Thirteen levels have been turned in the Gold Sovereign shaft and the next station at the fourteenth level will be cut at the horizontal plane of 8,937 feet above sea level.

WASHINGTON, Feb. 9.—Senator Nelson's bill for federal incorporation of all concerns in interstate commerce was reintroduced today. It was introduced on in the Sixty-first congress

A Household Word In Every Home

That's what Pan-Dandy has become:

For the gurus of housewives all over the city have come to realize that it means "the bread that can't be bettered."

Pan-Dandy **5¢** **Pan-Dandy Bread** **10¢**

Pan-Dandy is made right with selected flour and the purest of milk; it's baked right in sanitary ovens and so naturally, it tastes right.

You'll say so when you try it.

Make the trial today—all grocery have it. But be sure it bears the Pan-Dandy label.

MERCHANTS DIVISION MEETS FRIDAY EVENING

The merchants division of the Chamber of Commerce will meet at the Alamo Friday evening at 6:30 o'clock for a regular business session. Reports will be heard from the Central Colorado fair committee and the committee on securing grounds. The latter committee, of which L. J. Newsome is chairman, has been considering several sites for the fair grounds, and is expected to report something definite in regard to a selection at the meeting Friday.

San Antonio, Texas, the famous "Miracle City," has one of the most modern and modern hotels in the U. S.—the St. Anthony. Now under the management of W. O. Brinker. Adv.
